

## NorthantsET.co.uk

Advertising on NorthantsET.co.uk and in the Evening Telegraph together will reach an audience almost double that of the newspaper alone. Only 8%\* of our online site visitors are average issue readers of the Evening Telegraph so it is essential to advertise on the website to reach that unique audience. Internet penetration is increasing rapidly as is the frequency with which people are going online. As a result of this rapid growth, British consumers are now spending more than ever with UK internet sales reaching £3 billion for the month of November 2006 as Britain's online shoppers reaffirmed their affinity with online Christmas shopping.
